SOME CHOOSE DARKNESS, OTHERS ARE CHOSEN BY IT. ON MAY 28, 2019...WHAT DO *YOU* CHOOSE?

"In forensic reconstruction, no one could do what Rory routinely accomplished, it was simply in her genes. She accomplished this by developing a deep and personal connection with the victim and learning their story. Why they were killed always followed." – from *Some Choose Darkness* by *USA Today* bestselling author Charlie Donlea

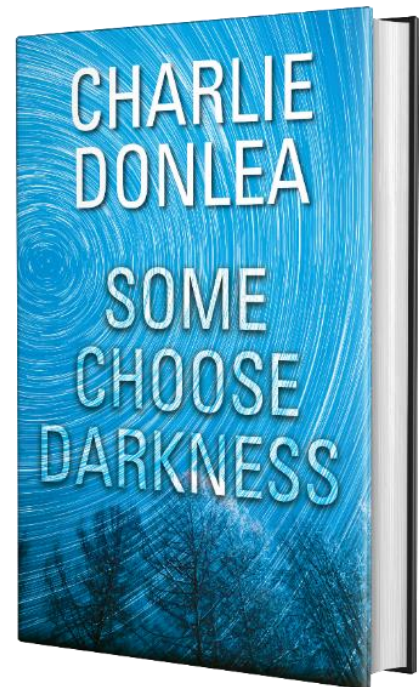

Praise for Charlie Donlea

"You can't blame Charlie Donlea if the ending of his novel makes your jaw drop. The title alone — Don't Believe It— is fair warning that his characters are no more to be trusted than are our initial impressions of them."— **The New York Times Book Review** on *Don't Believe It*

"[A] fast-moving page-turner...Donlea skillfully maximizes suspense by juggling narrators and time." - **Publishers Weekly** on *The Girl Who Was Taken*

"Donlea's sophomore effort is solid. He effectively tells the story using shifts in time, and...keeps the reader guessing and second-guessing until the end, thanks to an expertly crafted abundance of potential suspects." - **Library Journal** on *The Girl Who Was Taken*

"With a soaring pace and teasing plot twists, Charlie Donlea's debut mystery is like a cool drink of water with a twist of lemon. It's refreshing to find a book that has such a well-developed plot and excellent writing to back it up."— **Bookpage** on *Summit Lake*

On May 28, 2019, *USA Today* and Indiebound bestselling author **Charlie Donlea** injects his emblematic jaw-dropping twists, sophisticated character development and electric prose into a haunting novel about deadly secrets hiding in plain sight. With its uncommon perspectives and shocking conclusion, ***Some Choose Darkness*** is Griplit at its best – the perfect summer suspense.

-more-

Some Choose Darkness alternates between the summer of 1979, when five Chicago women were thought to be murdered by a predator labeled “The Thief,” and the present-day investigation into the enigmatic woman who became his final victim. Charged with solving this cold case is Rory Moore, a restorer of antique dolls who moonlights in forensic reconstruction and exhibits mannerisms that pin her on the autism spectrum, but possesses an uncanny ability to see what others don’t. And as The Thief nears the end of a forty-year sentence, the fragments of truth she pieces together begin to form a picture more terrifying than even she could have imagined...
